

XHS-300 Series

Diaphragm Sensed Pressure Regulator with Single 100W Heater

An economical heated regulator available in 'side entry' or 'in-line' heat transfer options to maintain sample gases in their vapour state. The 'in-line' design maximizes the heat transfer area via a unique spiral machined heater sheath, which mixes the gas and ensures efficient heat transfer. The 'side entry' design can be used in applications where heat transfer is less critical, and where installations have height restrictions. Both options incorporate an efficient 100W heater cartridge, and are fully serviceable to remove carbon deposits and maintain maximum heat transfer.

Applications:

Natural Gas sample systems Oxygen sample systems Moisture sample system

Features:

- ATEX certified to EEx d IIC T3
- 100W Heater cartridge
- Strong Inconel X750 Convoluted diaphragm
- Easy to wire potted board with 115V or 230V supply
- Fully serviceable design
- Optional entry points for cable supply

STANDARD MATERIALS OF CONSTRUCTION

Regulator part	Material
Body and Bonnet	316SS
Main valve pin	316SS
Soft seat cone	PEEK PEEK – 300bar inlet PCTFE - 210bar inlet
Valve spring	Inconel X750
Diaphragm	Inconel X750
Diaphragm washer	Brass
Cartridge Holder	316SS
'O' ring seals	Viton
Adjusting screw	Ali Bronze
Electric Enclosure	Coated Aluminium
Compression Fitting	316SS

Designed and built in the UK

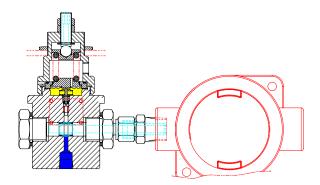

XHS-300 Series

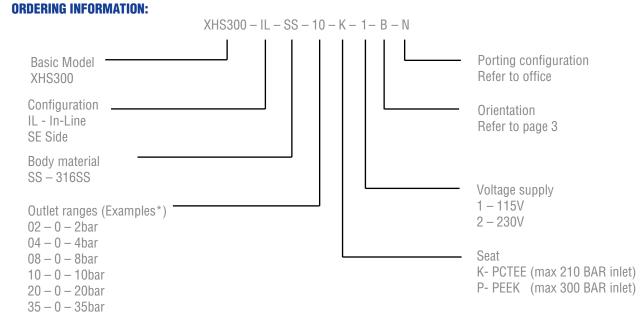

Diaphragm Sensed Pressure Regulator with Single 100W Heater

SPECIFICATION:

Max rated inlet pressure300bar (4350psi) with PEEK seat
Outlet ranges up to 35bar (500psi)
Design Proof pressure 150% max WP
LeakageBubble tight at max WP (tested on Nitrogen)
Weight 3.2kg (1.5lbs)

Panel Mounting Ring: PT-C-024

NOTE: Product availability and specifications contained herein are subject to change without notice. Consult local distributor or factory for potential revisions and/or service related issues. // pg 2 of 3
